

Asbestos Roof: Strip & Re-Sheet

Hawkins Roofing Ltd have been awarded a £2.7m contract for the strip and resheeting of an existing Asbestos Roof over three live manufacturing plants based in Runcorn over a 12month period.

With strong client supervision and inspection this project has been delivered on-time and to the complete satisfaction of our client.

This was a TATA Platinum specification and warranty approved project, using new 120mm Trisomet 333 profile panels in HPS200 Ultra.

Hawkins Roofing Ltd
