

## Roofing and Cladding Works

Hawkins Roofing Ltd were awarded the contract for a new build project in Bloxham.

Hawkins Roofing Ltd worked closely with the client to ensure that the specified brief of a building that was sympathetic to the surrounding area whilst incorporating a modern versatile office space was met

The Hawkins design team came up with a design that would weather and protect the building using powder coated aluminium bull nose feature flashings and adding a Timber cladding feature to the exterior that would ensure the building didn't look out of place in the environment it was set in.
