

## External Balconies and Internal Handrails

Hawkins Steel Ltd were awarded the contract to carry out the supply and installation of new balcony structures complete with balustrades, timber decking and soffits on a new build development.

All Steelwork was fabricated in house to execution class II through our fabrication department. All structural steel was hot dip galvanized and painted to the architect's nominated colour.

The balustrade was fabricated by our specialist fabrication department, consisting of powder coated uprights with stainless steel (Grade 316) handrail & glass clamps, glass was supplied with coloured tint and sandblasted to create a frosted effect.

Once installed the balcony structures were fitted out with anti-slip timber decking and coloured ACM board to the underside.

Hawkins Steel Ltd were responsible for the following works on this project:

- External – Cloister Feature Steel to communal courtyard.
- External – DDA Handrail, Stainless Steel uprights with warm grip Handrail.
- Internal Staircases – Mild Steel powder coated balustrade with timber top rail.
- Internal Staircase – Stainless Steel/ Glass Balustrade.
- Internal Light Wells – Stainless Steel/ Glass Balustrade.
