

Steel Frame Fabrication

Hawkins Steel Limited were awarded the contract to construct the steel frame for a new office and warehouse facility in Banbury, Oxfordshire

The Hawkins Steel design team worked closely with the client and structural engineer in order to produce drawings in line with the architectural requirements and the clients' specification.

Hawkins Steel Ltd were responsible for the supply and installation of the 930m² structural steelwork frame.

The steel frame was fabricated in house to BS EN 1090-2 CE marked to execution class 2.
