

Singapore Steel Works

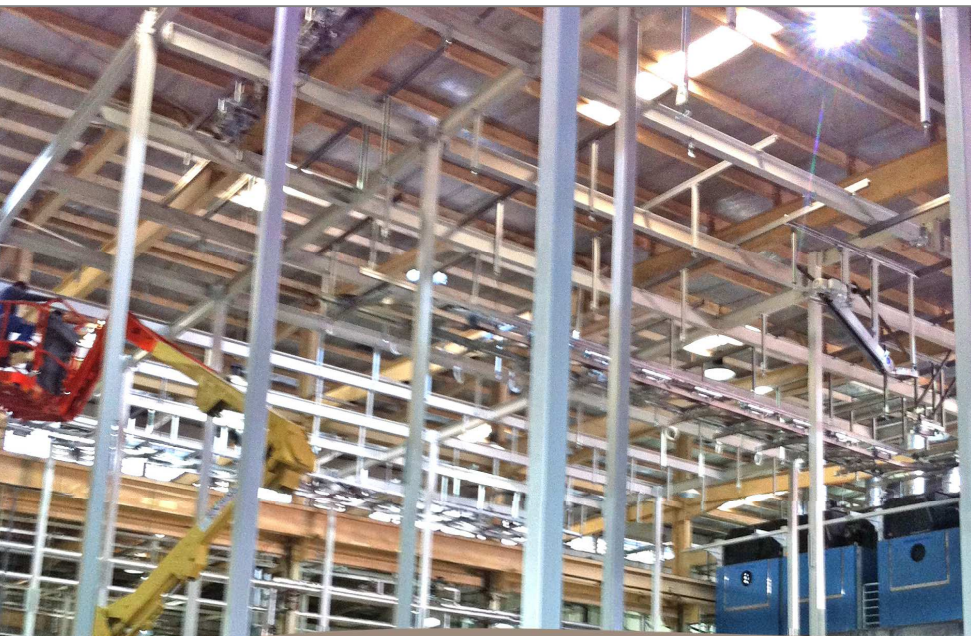

Hawkins Steel Limited were awarded the negotiated contract for the fabrication, supply and installation of 24 Tonnes of structural support steelwork for a market leading Laundry Installation Manufacturer.

All steelwork was fabricated within our production facility in Banbury, Oxfordshire, loaded into shipping containers and transported to docks for shipping.

Acting as partnered sub-contractor to Kannegiesser UK, Hawkins Steel Limited provided technical support, contract planning and logistics itinerary for this installation.

The project plan included the following aspects.

- To provide detailed fabrication drawings.
- To fabricate steel monorail support structure and modular platform.
- To supply and apply surface finish to the clients corporate colours.
- To prepare itemised Shipping consignment.
- To prepare itemised Itinerary of shipping documents to suit time critical sailings.
- To install steelwork on site working in conjunction with numerous other trades to a time sensitive deadline.
