

Complete Roof Refurbishment

Hawkins roofing were awarded the contract for the full strip and re-sheet of this asbestos roof on an industrial unit based in Banbury, Oxfordshire.

The project involved installation of safety and debris netting and full safety scaffolding to allow for the safe removal of the asbestos sheets and the installation of a new roofing system. The upgraded roofing system offered the additional benefit of thermal insulation properties to the building.

Hawkins Roofing Ltd were also responsible for upgrading all of the surrounding gutter systems. The project was completed on time over a five-week period on a live working environment, causing no disruption to ongoing factory operations.
