

ARCHITECTURAL REVIT TECHNICIAN

The Hawkins Group is an expanding UK based family run construction business. Within the Group (Hawkins Projects, Hawkins Roofing and Hawkins Steel) combined skills and experience work in synergy to bring together a wide range of projects; providing clients with the peace of mind that their projects are in safe hands. Our ability to integrate resources from different divisions within the group enables us to meet the everchanging needs of our clients' multidisciplinary requirements. We provide turnkey solutions for any project, which allows us to provide our clients with a cost effective, cohesive and efficient solution. Hawkins Group of Companies manages and oversees projects from inception to completion, allowing you to concentrate on running your business without the added stress of project management.

The Group's in-house design team provide the technical expertise gained over 100 years of combined experience, ensuring each project undertaken is delivered in-line with the clients expectations, along with guidance on possible value engineered solutions. By using the latest detailing and 3D software, Hawkins can interpret the client's vision and provide comprehensive illustrations. Our continued investment in the latest 3D, virtual reality and surveying technologies enables us to produce 3D models, rendered images and virtual reality simulations from concept to completion. Virtual reality, unlike traditional user interfaces, gives the client a real-life experience of their project.

Everyone at Hawkins is committed, hardworking and passionate about what they do. Hawkins strives to provide a positive and fun working environment that focuses on comfort, collaboration and creativity to promote problem solving, effectiveness and success. Hawkins invests in staff training and development and embraces continuous improvement. Hawkins strives to and enhance staff engagement, job satisfaction and wellbeing.

About the job

The main purpose of this role is to work in collaboration with our internal design and operations team, to support the sales process and to produce detailed drawings, models, walkthroughs and plans for buildings, structures and other construction projects. This role will require an experienced Architectural Revit Technician with the potential to grow and utilise their creativity to provide technical solutions to visualisation of products and services to keep Hawkins Group's customer experience at the forefront of trends and technology of 3D / VR environments and future technology advances.
